## 226 BUSINESS MEN LOOK OVER SAMSON PLANT; SEE GROWTH

### PRESIDENT CRAIG TELLS CITIZENS FUTURE OF INDUSTRY IS IN THEIR HANDS.

#### INDICATES MOVE

##### Declares Factory Cannot Wait for City to Catch Up.

The citizens of Janesville hold in their hands the power to increase the size of the Samson Tractor company to a point where in the near future it will be one of the greatest manufacturing plants in the world; or they have the power to stifle it. It is the growth of the city in this city, says Mr. Craig, president of the company, that will determine its future. "The power to stifle it is in the hands of the citizens," he said. "If they do not catch up with the growth of the city, the factory cannot wait for them. It must move forward, and the city must catch up with it."

Mr. Craig said that the growth of the city is the key to the future of the factory. "If the city grows, the factory will grow," he said. "If the city does not grow, the factory will not grow. It is the duty of the citizens to see that the city grows, and that the factory grows with it. The factory cannot wait for the city to catch up with it. It must move forward, and the city must catch up with it."

## BAR AT WOMAN'S CLUB HAS TEMPTING LIST OF COCKTAILS

(By Associated Press.)  
London, Dec. 10.—The new women's club in Grosvenor Place, the "Forum," has an American bar with one of the best lists of cocktails in the west end of London. "Gloom raiser," "Elephant's Kick," "Monkey's Gland" and "Pussyfoot" are the names of some of the drinks, says the Globe, while "Silver Flitz," "Forsie's Neck," "Widow's Kiss," "Rainbow," and "Clever Club" also are available.

## SPROUL OUTLINES REPUBLICAN POLICY IN 1920 CAMPAIGN

(BULLETIN)  
Washington, Dec. 10.—The 1920 national republican convention will be held in Chicago, it was voted here today. June 8 is the date.

Washington, Dec. 10.—The time and place for the 1920 republican national convention are to be selected at a late today by the national committee at its quadrennial meeting here. The odds for the convention honor before the meeting convened at 10 o'clock today were in favor of the St. Louis delegation. The St. Louis delegation was keeping up a vigorous fight. Discussion of the probable date centered about the first half of June with many of the leaders urging that Tuesday, June 8, be selected for the opening. Governor Sproul, Pennsylvania, in a keynote speech today attacked the administration's Mexican policy and declared the republican party opposed to the present policy. He urged a campaign with confidence that the people would endorse his policies. His outline of these included a better relation between capital and labor, economy and business management in administration, a firm handling of the Mexican situation, restoration of the republican party and constitutional government, and a sound solution of the railroad problem.

Referring briefly to the question of peace, the governor declared that the republican citizenship had "endured to cooperate in the peace movement." He said that only such limitations as will preserve to this republic its full right to determine its own affairs under the constitution. "We must prepare," said Governor Sproul, "not only to clean up the world in earnest, but to clean up our own house. We must lay our plans for restoring our nation to the position of respect which it once held. We must support the republican party in its own affairs under the constitution."

## Labor Mayors Discard Robes and Coked Hats

(By Associated Press.)  
London, Dec. 10.—Many labor mayors have discarded the robes and coked hats which they wore at the recent London boroughs regard the legal office as undemocratic and have expressed their intention of discarding them. The London borough of Lambeth has already done so. The mayor-elect of Dulham, says he will go to chapel without the robes and coked hat, but will wear the chain.

## Jugo-Slav Army Moves up To Confront Italian Coup

(By Associated Press.)  
Vienna, Dec. 10.—Telegrams from Agrum report that the Jugo-Slav army corps are moving toward Dalmatia and northern Albania. The Serbian government, the message state, has explained that this movement is a precautionary measure against any attempt at occupation in Dalmatia. Albania has taken root in 16 of the city's institutions of higher learning. Dr. Henry R. Linville, president of the union, said today that communications had been received indicating that college faculty members throughout the country were considering the advisability of unionizing.

## New College Professors' Union Takes Deep Root

(By Associated Press.)  
New York, N. Y., Dec. 10.—The new college professors' union, bound by its constitution to display only an academic interest in strikes, has taken root in 16 of the city's institutions of higher learning. Dr. Henry R. Linville, president of the union, said today that communications had been received indicating that college faculty members throughout the country were considering the advisability of unionizing.

## Shall We Procrastinate?

County Highway Commissioner Moore says he has not attempted to take any steps to keep the county highways open because he has no funds to carry on the work. He also declares that he would not attempt to do anything along that line, because even though he had funds and spent them, he would be personally liable if the county board did not sanction his efforts.

Mr. Moore appears to hold the opinion that as long as he is helpless, he should follow the lead of the county board. He is legally within his rights. But even if he is, he is not showing much initiative as a public official. In these times of stress, with traffic greatly demoralized by curtailment of railway trains, we believe that the taxpayers of Rock county would show appreciation of any efforts Mr. Moore, as highway commissioner, might make to keep the highways open. It is the duty of a public official to get funds, and then do the best he can under the circumstances to keep highway traffic moving.

Mr. Moore must realize that we are not living in the days of the "good old days" when the county board was a body of men who were not afraid to take action. We are living in a progressive era when things are done differently than they were in the days when a farmer came to town to buy a horse or a cow. If the roads were impassable, stayed home until he could come through the drifts. This is the day of the motor transportation, when huge trucks are used to haul the loads the railroads do not handle. It is the duty of a public official to get funds, and then do the best he can under the circumstances to keep highway traffic moving.

The argument is raised that it will cost money and thereby raise taxes. Surely it will have to be paid for. But would it not be better to have the roads open, and the trucks moving, and the business going on, and the taxes paid, than to have the roads closed, and the trucks stopped, and the business stopped, and the taxes not paid? The argument is raised that it will cost money and thereby raise taxes. Surely it will have to be paid for. But would it not be better to have the roads open, and the trucks moving, and the business going on, and the taxes paid, than to have the roads closed, and the trucks stopped, and the business stopped, and the taxes not paid?

The county board can meet in special session, authorize funds for keeping highway traffic open, and have an organized effort to get the roads open, and the trucks moving, and the business going on, and the taxes paid, than to have the roads closed, and the trucks stopped, and the business stopped, and the taxes not paid.

## Final Efforts Made to Gain Goldman, Berkman, Release

Washington, Dec. 10.—Final efforts to gain the transportation of Goldman, Berkman, and Alexander were taken today, their counsel asking the supreme court for permission to file appeals in New York, dismissing habeas corpus proceedings.

The stay granted in New York for appeal to the supreme court will expire tomorrow, and accordingly the court officials, unless the supreme court acts before that time both will be deported.

Minneapolis, Minn., Dec. 10.—By nearly seven thousand votes the proposed city of service franchise giving the city control of street car service was defeated at the special election yesterday.

## ADVISORY BOARD TO FIX RESTRICTIONS ON COAL TONIGHT

### MUCH IMPORTANCE AT- TACHED TO SPECIAL MEETING OF MAY- OR'S ADVISORS.

#### DEALERS INVITED Questions and Complaints Aris- ing from Garfield Edict to be Threshed Out.

Government fuel restrictions will go into full effect in Janesville at 12:01 a. m. tomorrow. Janesville retailers did not observe the Garfield edict today as no official notification had been received by Fuel Administrator W. B. Sullivan.

The Gazette obtained a ruling from the state fuel administrator's office at 3:15 o'clock this afternoon to the effect that the government restrictions were effective throughout the country despite the fact that local fuel administrators had not been notified. Newspaper stories declaring the Garfield edict to be in effect now are official.

This information was communicated by the Gazette to Mr. Sullivan with the result that he issued orders for Janesville to start observing the federal restrictions tomorrow. Chief Thomas Morrissey was instructed by him to see that they are enforced.

The Chamber of Commerce has notified to see that all retail stores affected by the order are informed and advised to observe the restrictions. The order is to remain open only from 12 to 6 o'clock beginning tomorrow. Dance halls, pool and billiard halls, and other stores may remain open only from 12 to 11 p. m.

All eyes are fixed on the outcome of the special meeting of Mayor Welsh's coal committee to be held tonight. Janesville's program of fuel saving which will be operative here for probably three weeks, is expected to be fully outlined by the board. Fuel Administrator Sullivan made efforts today to get in touch with State Fuel Administrator W. N. Fitzgerald at his office in Milwaukee, but was unable to reach him.

There were but few developments in the local coal situation today. Up to a late hour today, the coal had been reported to Fuel Administrator Sullivan as having been received by dealers here. He has issued orders today to get in touch with the coal situation.

The fact that Mr. Sullivan had received no word from the coal situation today, the Garfield 6-hour edict in effect here resulted in the majority of retail stores keeping open from 9 until 12 o'clock today. Several stores considered the newspaper notification of the edict and closed at noon.

Police Power Questioned  
Complaint that some dealers are not obeying either the federal or local order has brought up the question of whether or not local police shall have power to enforce it. This is a common question.

It is striking to note that in return for the restrictions, why would fuel restrictions have to be enforced for three weeks or more?

AN ANSWER  
Coal loading reports of northwestern region for month of November, 1918 and 1919, given in carloads:

	1919	1918
Illinois	12,351	23,121
Wisconsin	3,231	3,231
Michigan	432	5,283
North Dakota	1,325	1,452
Iowa	75	5,281

## Extreme Cold Wave Hits Nation; Coal Supply Is at Low Ebb; West Suffering

Subnormal Temperatures of 20 to 50 Degrees Reported in West; Extending to East; No Moderation Is Forecast.

(By Associated Press)  
Chicago, Dec. 10.—Below zero temperatures prevailed today in virtually all districts from the Mississippi valley to the Rocky Mountains region and the cold wave began its eastern invasion with subnormal temperatures of 20 to 50 degrees. In many parts of the western country, already hard hit by the fuel shortage, many small cities and towns were destitute of coal and suffering was reported. Montana and Northern Idaho were the chief sufferers.

As a further coal conservation measure the most severe curtailment of passenger train service ever known was effective today with extension of the federal railroad administration's "train miles" saving order to the eastern region. It was estimated 15,000 tons of coal would be saved daily, and that until the end of the present week it would be necessary to save an additional 200,000 train miles daily.

Pressing extension of the cold wave into the east and southeast heavy rainstorms were prevalent throughout those sections yesterday with heavy property damage in Georgia, Alabama and Mississippi and loss of three lives near Atlanta, Ga., in flood waters. Railroad service was seriously handicapped and heavy trucks were stranded by the almost unprecedented rainfall.

In the western country where almost record snowfalls accompanied the cold wave, the situation was even more serious. In eastern Washington and Oregon one of the worst snowstorms in history was reported.

No Moderation Forecast  
No general moderation was forecast for today. A wide range of the bitter weather was indicated by reports of sub-zero readings from these places:

London, Wyo., 34 below; Havre, Mont., 35 below; Miles City, Mont., and Cheyenne, 28; Devils Lake, N. D., 26; North Platte, Nebr., and Bismarck, N. D., 22; Pueblo and Denver, and Rapid City, S. D., 20; Moorhead and Duluth, and Fargo, Minn., 18; Chicago, Ill., 15; Dodge, N. D., 10; Minneapolis, Sioux City and Spokane, S. D., Omaha, Nebr., and Lincoln, Kans., 6; Des Moines, Iowa, 4.

In New York City, where reports indicated only a feeble and unorganized effort had been made to keep the streets open, the public service commissioner, said he had taken steps to enforce the saving order and it would be put into effect immediately.

Chicago Streets Dark  
In Chicago downtown streets were in semi-darkness lighted only by street lamps. The temperature was reported to be below zero. In addition to the order that put Chicago on virtually a six-hour day as regards retail stores and other buildings, with a 3-day week for factories, another order today cut interior illumination of all places to 60 percent.

## DOMESTIC SERVANT WENT SLEEPLESS TO STUDY UP POLITICS

(By Associated Press.)  
London, Dec. 10.—Jessie Stephenson, the former domestic servant who was recently elected to a seat on the borough council of Bermondsey, a London suburb, says that municipal work is the first step in the direction of the house of commons. In an interview she spoke with quiet confidence of her future arrival in parliament and gave many instances of how work could be saved for women.

"I robbed myself of sleep at night and rose in the morning to study politics," she said. "There, I believe, lays the way to reform. My first hand knowledge of household management gives me many ideas to base my political plans upon."

## MILK TRUCKS ARE STALLED ON ROADS BLOCKED BY SNOW

Milk deliveries to Janesville were at least three hours late, and some even were not received today, because of the blocked condition of the country roads stalling motor trucks and delaying horse-drawn vehicles. Indications were that the big dairy concerns of the city might not receive their milk until this afternoon to make the milk trains and should the trucks get in today may have to hold the milk until tomorrow.

Despite reports reaching the city this morning of at least 15 automobiles stuck in the snowdrifts on the country highways, four of them abandoned because they could neither get through nor come back. County Commissioner James A. Moore, when told of these conditions, stated that he could do nothing. Furthermore, he does not think it is his duty to do anything to keep the roads open.

He said: "No sooner will you clean the roads than the wind will blow the snow into drifts again and you will have to do the work all over."

Can Do Nothing  
"I can do nothing to relieve the situation," the commissioner said when seen at his office in his home at 245 North Washington street. "In the first place I have no authority to do anything but to see that the roads are kept open without authorization from the county board."

"But don't you think the board would authorize you to go ahead to keep the roads open in this time of emergency when the fuel situation necessitates the need for trucks to take the place of withdrawn railway trains?" he was asked.

"Well, on that point I do not care to state," he replied, but in the conversation which followed he intimated that he feared the board might not give him the necessary authority. He said he might run up into the thousands if the snows are exceptionally heavy.

Wants Authority of Board  
Asked if he had the funds, would he think the present emergency warranted his going ahead on his own initiative to keep the roads open with the expectation that the county board would approve his action at its next session on Jan. 14?

Moore answered that if he did that he would be jeopardizing his bond, which he could not care to do. "Road opening is clearly up to the towns, villages and cities to take care of," the commissioner said, and I have no authority to do anything but to see that the roads are kept open without authorization from the county board."

Whether in the eyes of the law, motor truck transportation is "one of the necessities of life," which Moore debated might not warrant the expenditure of money to keep the roads open, even if 50 percent of the cost was borne by the motor truck lines are not ordinary. He believes that where trucks cannot get through, sleighs should be resorted to.

Upon the labor question, Mr. Moore reiterated what he said Saturday, that it is a difficult matter to hire men for this kind of work. Told that some of his own men, discharged for the winter, are seeking work in the city, he declared that he would be glad to have them work even if he wanted to, because he has neither the funds, nor the authorization.

He thinks that about the best way other than keeping of the roads clear by farmers along the roads in their own district by the use of sleds, will be to use some kind of implement which will plow the snow into compactness. For this purpose he has suggested one of the tanks which have been requested from the war department, might be utilized.

## Going Down!

Temperatures recorded on various thermometers about the city are recorded as follows: People's Drug company, 6:30 a. m., 18 below; noon, 2 below. High streets, 6 a. m., 20 below. Home of George Champion, Center street, 6:30 a. m., 15 below.

## MINERS ACCEPT 14 PERCENT RAISE; RESTRICTIONS HOLD

### DR. GARFIELD'S ORDERS WILL REMAIN IN EFFECT FOR PRESENT.

#### WORK AT ONCE

New Wage Agreement Basis Will Be Fixed by Commission of Three.  
(By Associated Press)  
Indianapolis, Ind., Dec. 10.—The strike of 400,000 bituminous coal miners of the country was settled here today when the general committee of the United Mine Workers of America agreed to accept the plan offered by President Wilson.

The members voted to accept the proposal of President Wilson shortly before 3 o'clock this afternoon. At that time it was said no vote had been taken on the question of holding a convention of the union. The committee was still in session at that hour.

The plan provides that the miners shall return to work at an increase of 14 percent in wages; that a commission of three persons be appointed to investigate and determine within 60 days, if possible, a basis for a new wage agreement. The conference was made up of international and district officials and members of the executive board and scale committee of the organization.

There will be no relaxation of restrictions on the use of coal for the present as the result of the ending of the coal strike. Fuel Administrator Garfield announced late today.

The terms of the settlement as agreed to by the miners, provide for immediate return to work at 14 percent increase in wages over the war time scale, against continuation of which the miners struck. Operation of the mines will be resumed, except as to wages, on the same basis which obtained prior to the strike.

## LIBERALS ARRAIGN OLD POLITICAL PARTIES

(By Associated Press.)  
St. Louis, Mo., Dec. 10.—Dissolution of monopolies is the only solution of the economic problems facing the nation, according to the report of the program committee, submitted today to the national conference of Liberals in session here.

The two principal political parties are arraigned in it. The report declares that the "growth" of basic resources and industries by the trusts has created the conviction that no relief can be secured except by the formation of a new party. There is a widespread feeling, the report continues, "that there is no real difference between the old parties; that both are controlled by financial interests which constitute an invisible government, unrepresentative of the people."

The report especially assails the alleged steel, beer, oil, mining and coal trusts, and asserts that by monopolizing patents and the railroads, these organizations have precluded all other forms of competition. A more equitable distribution of wealth among those who contribute to its production is demanded.

## Bolsheviks Begin New Offensive Along Narva

Hunting Eye Attends Council

By R. S. Alexander

Hunting Eye wondered what the big stone building with the tower was for. He entered at a door which stood open. Ahead of it was another door with light showing through the crack at the bottom of it. When he opened it, he saw a number of men seated listening to one of their number who was speaking. The little Indian boy slipped into a seat and sat quietly until the meeting was over. One of the men approached him and said kindly: "Well, you butted into politics this time, sonny."

"What is this meeting?" asked Hunting Eye.

"It is a meeting of the Council."

"But the council is always held out under the open sky," said the boy from the North Woods.

"True, among your people, the chiefs and medicine men, seated about the council fire, make laws for the village. We also have a council which makes laws for the city. In some cities, it is called the city council. In others, the board of aldermen, and in still others, the city commission. Its members are councilmen, aldermen or commissioners. The laws which the council makes are called ordinances."

"Usually the city is divided into sections called wards. Generally,

one or two aldermen are elected from each ward by the people of that ward. Sometimes, however, the aldermen are elected at large which means that they are elected by the people of the whole city instead of just one ward. The aldermen are elected for a definite term of office (usually two or four years) which varies from city to city."

"The Council of Board of Aldermen is different from the Commission. The main difference is that the council can only make laws and can not enforce them. The city which has a council has also a mayor to enforce the ordinances. A commission, however, does the work of both the mayor and council. It makes the laws and enforces them. In some cities the commission is elected merely to choose a city manager. He makes the ordinances and enforces them. He is the whole government in himself."

1. What is the term of office of your alderman?

2. What ward do you live in?

3. How many aldermen in your city council? How many elected from your ward?

NATURE'S CHRISTMAS TREE.

(By Adelia Belle Beard.)

Suppose you put aside all the tinsel, glass balls, glass fruit, and other artificial trimmings for your Christmas tree and this year use only honest-to-goodness decoration things made by Nature, not manufactured in a factory. There are many to be found in the woods, the fields, the garden, and—yes, the barn. Some grow wild, others are cultivated, but they all grow.

If you can go to the woods and bring home the tree yourselves, that will be a trip which will send the Christmas feeling down to the tips of your toes. Choose a Balsam-fir if you have a choice, its spicy, aromatic breath makes the air redolent of the Christmas season and its slender, symmetrical, cone shape makes the young tree especially well adapted to the purpose.

Here are materials for your decorations. Cluster of red berries of any kind tied to the branches with narrow red or bright green ribbon. Berries of the mountain ash, holly berries, the dangling, four-lobed berries of the spindle tree, or burning bush, and the pendulous coral crops of the barberry bush. Bunches of clean, yellow heads of barley and other breaded grain from the barn, with their sprays of stiff

### TERRAZZO FLOOR IS FEATURE OF REPAIRS

Improvements in the basement of the city hall aggregating close to \$5,000 are nearing completion, giving promise that by the middle of January a modern story will have been added to the building.

The latest feature of the remodeling is the laying of a new terrazzo floor to substitute the worn concrete floor in parts of the basement—the new lock-up, the police locker room, emergency ward and the large hallway.

The new floor will have the appearance of a white marble floor when completed.

Mixing small chips of marble with a mixture of concrete, the material was first laid down in appearance of an ordinary cement floor. A heavy steel "brush" operated by a large electric motor is then put into action to grind down the surface to present a smooth marble floor.

The grinding machine went into action for the first time yesterday, it worked on the floor of the new lock-up room.

Plans are being discussed to tear up the wooden floor in the two rooms above the police headquarters and to substitute the terrazzo.

### OPEN ROADS TOPIC AT TWILIGHT CLUB

Keeping open the roads of Rock county during the winter months was advocated at the meeting of the Twilight club at the Y. M. C. A. last night by several of the members who remarked that it was time the people of Janesville took a greater interest in county affairs. It was pointed out that the present fuel stringency demands that something be done to keep highway travel moving and that the matter has become one of public necessity which should be met without thought of the money cost.

With the farmers shut out by winter conditions and unable to get to the cities to trade in needed heavy goods, and fewer trains running each day, greater realization of conditions was brought home to the gathering through the discussions.

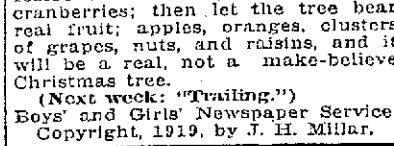

Extravagance To not sell the things you have no use for is reckless waste. Rugs bring money; 4 1/2c pound for clean wipers at Gazette.

Hairs standing out like rays of light. Strings of shelled, golden corn, also from the barn, and from the woods, clean, dry cones, large and small, of the spruce tree, the spiky balls of the sweet gum tree, and many other dry seed vessels that are decorative.

Glid the cones and balls to make them shine and hang them to the branches by yellow strings several inches long. Add the time honored festoons of the poplar and red cranberries; then let the tree bear real fruit; apples, oranges, clusters of grapes, nuts, and raisins, and it will be a real, not a make-believe Christmas tree.

### Rural School News

H. A. Moehlenpach, Clinton, is chairman of the Near East relief for this county. He has sent material to the county superintendent's office asking that donations be made of money or clothing for the suffering Armenians.

Six letters written by the children of joint district 5, Janesville, Fulton, Harmony, and Milton, have been received by Supt. Antisdell. The children tell of their school society which meets once a week in which they answer roll call with a Mother Goose rhyme, or the name of a character in history. Geography and spelling matches are also a part of the programs. Warm lunches are prepared in this school. Miss Bernice Billings is the teacher.

Supt. Antisdell visited schools on the Interurban line today.

At the school taught by Miss Alice Milbrandt, Union, \$22.55 was cleared at a box social. The women of the district made pies and cakes for the social. The children gave a program.

Nearly \$50 was cleared at the box social given in the Red Brick school, near Footville. Miss Nellie Gardner is the teacher.

### The Knife and Fork Brigade

Dyspeptic Soup Eaters Can Change Their Spoon for a Knife and Fork and With Stuart's Dyspepsia Tablets the World Smiles Again

Ask a former dyspeptic who tried the Stuart's Dyspepsia Tablets plan what wonderful relief they afford. Instead of the grouchy bowl of soup at home and the abject terror at the sight of good things to eat at a party supper, the soup spoon has been replaced by the knife and fork. This comes from giving the digestive processes required assistance. These tablets digest food. They stimulate natural digestive secretions. Thus the food keeps on digesting, doesn't lie in the stomach to sour and create all sorts of distresses. And they act as soon as they enter the stomach, hence relief even in dyspepsia may be looked for almost at once.

If you have been troubled with gasiness, sour stomach, water brash, heaviness after eating and such troubles, try these tablets. You will find Stuart's Dyspepsia Tablets on sale in any drug store in the United States and Canada.

### \$25,000 BOND ISSUE CARRIES IN EDGERTON

(By Special Correspondent)

Edgerton, Dec. 10.—Bonds for \$25,000 providing for four city enterprises were carried by a substantial majority in this city yesterday. The bonds, provide for the purchase of a city hall site, a street flusher, fire truck, and the purchase of the driving park for city park purposes.

### Rock County Shorthorns Are Taken to Sunny South

Rock county cattle are famed even to the extreme end of the sunny south. H. C. Fondran, Louisiana, left this city yesterday with the head of shorthorn cattle. Two of the cattle were purchased from James Caldwell and sons, the other one from Ely Crall and son.

In the spring Mr. Fondran said that he intends to come back and purchase a carload of Rock county cattle.

### High School Notes

During the singing period this morning, "Janesville Will Shine Tonight" was practiced for the first basketball game which will be held Friday evening. The team will play Broadhead in the local gym.

Freshmen will be given their ranks tomorrow morning. They are being prepared by the clerks, the Misses Eulalia Drew and Vernice Bennett.

Senior committee on graduation arrangements met this afternoon to discuss invitations for commencement.

Championship captainball games were begun at high school yesterday afternoon. In the first game the junior-senior team beat the freshmen by a large score, although the freshmen did some excellent team work. At the close of school this afternoon the freshmen team played the sophomores.

A mass meeting will be conducted by the girls of the teams tomorrow evening. Every student will be urged to stay for the final game. After the game 70 girls will enjoy the spread which will be served in the

domestic science rooms. A part of the program will be stunts put on by each class. Miss Pauline Cullen, the physical director, says that more girls have gone out for captainball this year than ever before.

### An Enviably Reputation Already Won

Hundreds of dealers who drove new Cleveland Sixes from the factory in Cleveland to their home cities have written the factory expressing their admiration and confidence in the car. What they all say is summed up in this sentence from one of them, "I can look any man in the face now and tell him the Cleveland is a regular automobile."

And that's what the Cleveland Six is—a regular automobile, an unusual automobile.

Hundreds of Cleveland Sixes, within the past four months, have undergone long, gruelling, cross country drives, with honor. They have passed over great hill drives and long mountain climbs, plowed through mud and wash-

outs and desert sands where other cars stall and stop. Its power and endurance have already won the Cleveland an enviable reputation.

This is not surprising for skill and sincerity are built into this car by men who have contributed their genius to the building up of one of America's finest quality cars.

The wedding of Russell Clemens Parker, son of Mr. and Mrs. George S. Parker, 306 Court street, to Miss Lucile Dorothy Corbett, daughter of Mr. and Mrs. James C. Corbett, 5618 Blackstone avenue, Chicago, will take place at the Cooper-Carlton, at 8 o'clock Friday evening. A reception and dance will follow the ceremony. Mr. and Mrs. George S. Parker will go to Chicago Friday, where they will meet their daughter, Virginia, who is coming home from Knox school, Terrytown on the Hudson, to attend the wedding. Several from this city will attend.

The marriage of Miss Elsie Elliott and Ralph Westrick, Milton Junction, took place at the home of Mr. and Mrs. I. P. Elliott, uncle and aunt of the bride, near Fort Atkinson, Nov. 29. The ceremony was read by Rev. Triggs, Fort Atkinson. The bridesmaid was Miss Marcella Jack, Fort Atkinson. The groomsmen were Ray Elliott, Milton Junction. The wedding march was played by Tyle White. The home and table were decorated in green and white. A wedding dinner was served to the immediate relatives. The bride and groom took a short wedding journey to Monroe. On their return they were given a reception at the home of the groom's parents, Mr. and Mrs. Alf Westrick. Sixty guests attended. They will make their home in Milton Junction.

Twenty young women were entertained last evening by Miss Clara Epton, South Jackson street. The affair was given in honor of Miss Helen Travis who will spend the remainder of the winter in Chicago. Music and dancing was the entertainment for the evening. At 10 o'clock a lunch was served.

Miss Clara Harvey, 455 North Terrace street, gave a dinner party Sunday evening. Several friends were entertained. They were invited to meet Orin Cudman, a portage.

The Bonita club will meet this evening with Miss Gertrude Cassady, 233 South Jackson street. The girls take their work. They enjoy a social evening and a lunch.

Miss Mabel Shimway, 706 Court street, gave a Sunday evening luncheon. Eight young women were her guests. The affair was given for Miss Mary Egan of the Michaels apartments, who will soon leave for Clinton, Iowa, to take up library work.

Mr. and Mrs. Jesse Earle, 108 Jefferson avenue, gave a farewell party Sunday for Mr. and Mrs. E. C. Bailey and family of 102 Jefferson avenue, who will soon move out of the neighborhood, into their new home on Sherman avenue.

## CLUBS AND SOCIETIES

About 80 women were served supper last evening at the meeting of the Loati band, held in the parlors of the Congregational church. Mrs. Roy Palmer and Mrs. Arthur Gannar served as hostesses. Mrs. Hedborg acted as leader in the social hour which followed the program.

J. A. Steiner, secretary of the M. C. A., gave a talk concerning the work of his organization among the colored people of Deloit. Mrs. Hedborg gave a brief resume of a meeting of officials of missionary societies held last month in Deloit. Mrs. C. E. Ewing gave a report of a conference of the Women's Board of Missions.

The Epworth league of M. E. church, will give a social Friday evening. The boys will be given a chance to buy hands instead of boxes. The Port Atkinson, Milton Junction and Union leagues have been invited to come. The proceeds will go for a French war orphan.

2020 Thrift Stamps On Way to Postoffice

The 2020 Thrift and War Savings stamps are now enroute to the local post office from Washington, D. C., according to an announcement made this morning by J. J. Cunningham, postmaster.

Stamps will be put on sale Jan. 1 and it is expected that students in the schools of the city and county will cooperate in the sale of the stamps as in the past. Rock county has made a creditable showing in the sale of stamps during preceding years and that this year's sale would not fall short of other years was the wish expressed by Mr. Cunningham.

## SCHOOL STUDENTS RUN OWN CAFETERIA

[By Gazette Correspondent.] Edgerton, Dec. 10.—For the past four years the domestic science department of the Edgerton high school has been conducting a cafeteria during the colder months of the school year. The cafeteria has been a decided success in previous years and seems to be promising of as great success this year if the first week of operation be any indication.

Miss Anna Hosen, who has charge of the department and supervises the work which she delegates to her students to perform, aims to supply meals at cost. During the first week of operation this year 270 meals were served at a cost of \$40.50. This will average a little less than 15 cents per meal. The dishes and foods offered are of interest both from the standpoint of variety and of price.

Last week the offerings and prices were: Meat pie .33, mashed potato .09, fruit jelly (whipped cream) .03, sandwiches (bread and butter) .03, sandwiches (chopped ham and egg) .03, sandwiches (cheese and egg) .03, cookies .11, and cake .05.

Similar prices have prevailed for the past few years and no difficulty has been experienced in at least breaking even financially. The primary purpose of the cafeteria is to supply meals for those who are from the rural districts or who live at some distance from the school in the city. That the scheme meets with approval is shown by the popularity of the domestic science dining room during the noon hour.

## 300 ENJOY DANCE GIVEN BY ELKS

Three hundred people were the guests of the Elks last evening at their second mixer, held in the club rooms. The Lakota orchestra furnished the music for the dancing which was the chief feature of entertainment. Many of the new comers to the city, employees of the Samson and Du Pont companies, were guests. Each guest was given a tag with his name written upon it, which served as a get acquainted scheme.

At eleven o'clock the toast to the absent brothers was given by the exalted ruler of the Elks, Joseph Scholler. Following this a lunch was served on the first floor of the club rooms. Chef Green prepared one of his famous spreads which was served cafeteria style.

The committee in charge of last night's party is composed of W. R. Duddington, chairman; Dr. Emil Schwegler, Louis Levy, Joseph Scholler, W. H. Washer, George Kerr, and C. R. Green.

The next social event of the Elks will be given Monday, Dec. 22. It will be a feather party, at which several turkeys, chickens and ducks will be disposed of. Proceeds of this affair will go to the charity committee to be used for a Christmas tree and celebration which will be held for the women and children of the city the Monday following Christmas.

## ZERO TEMPERATURE HALTS BRIDGE WORK

Hopes for having the new Jackson street bridge fit for partial use within the next two weeks have been abandoned by the Wausau Iron Works as a result of sub-zero weather which has prevented the pouring of the last arch. All plans have been upset by the heavy snows and abnormal temperatures of the past four days.

Until there is a break in the severe weather the last arch cannot be poured. As soon as this arch is completed a fill will be made along the east half of the bridge bringing it up to a grade to allow the laying of temporary street-car tracks and a side-walk. Mayor Welsh said today.

The plan is to have the east half of the bridge fit for use through the greater portion of the winter. With the advent of spring the permanent pavement, sidewalks, curbs and railings will be laid and the car-tracks placed on the west side of the bridge.

In obtaining material for the all between arches it is planned to dredge the river in the vicinity of the bridge deepening the channel so as to eliminate the collection of rubbish and to allow a natural unobstructed flow.

Navigation Is Still Open In Port of Marinette

Marinette, Dec. 10.—Navigation is still open in the port of Marinette, although it is being hindered greatly by ice. A few boats are making trips from Marinette and Menominee, Mich., but it is expected that they will have to lay up next week.

The Question of Safety

It is far the most important question in selecting an investment. Prompt payment of principal when due should be the first requirement of every investor. Make entirely sure of "safety first" before considering any other factor.

## THE GAZETTE'S PLATFORM FOR JANESVILLE AND ROCK COUNTY.

Community Betterments to which this Newspaper is Pledged.

- An adequate and modern hotel.
- A community building containing an auditorium, woman's rest room, and memorial hall for soldiers, sailors and nurses.
- Traffic regulations which will reduce danger on streets to the minimum.
- A street car service which will answer the needs of an increasing population.
- Improved streets in the city and better roads in the country.
- A survey of the housing situation with a view of discouraging exorbitant rentals for both rooms and houses.
- Careful appraisal of property, particularly that of those who have increased their rentals, so that they may pay their fair share of the taxes.
- A livestock pavilion at county's endeavor to take first place in the state as a stock producing center.
- An indoor recreation center in which dances and sporting events may be held.
- More parks and playgrounds for use of the entire community.
- Protected ice-skating rinks for children.

### IT IS UP TO US.

The 200 business men of Janesville who Tuesday afternoon had the opportunity to listen to an outline of the plans for the Samson Tractor company, by officers of that concern, and who later had the chance to go over the plant, seeing it in operation, came away with an entirely different view of the tasks which confront this city.

Many of those present had a vague idea that a big industry was being built in our midst. They had had the time to look over the proposition. They had read newspaper stories about the progress that was being made and perhaps at times felt that some of the statements made were a bit exaggerated. Yesterday those men saw for themselves, and seeing they came back to their places of business and their homes with an enthusiasm which will go far in helping this city to keep pace with a development which will make Janesville one of the largest manufacturing centers in the country.

It is safe to say that the men who listened to the Samson men felt of achievements, and plans for the future, realize that a concerted effort should be made to group together those who can do the most toward keeping civic affairs moving at a pace which will permit that industry to expand rapidly.

Many of the younger business men were present and they must have been impressed with the opportunity presented to them to take hold of civic affairs in a way which would assure team-work in tackling future problems. If out of the group of men who were on the tour of inspection, an organization will be formed which would have for its watchword, "Boost for Janesville," and which will be ever ready to tackle the tasks which will pile up before us in the next few years, the danger that industry will be handicapped because the city is not able to do its share will be greatly curtailed.

The hotel proposition has been hanging fire for months. Little information has been given out as to what the progress of the committee in charge of the solicitation of funds has been. As far as the general public knows, no effort is being made to provide an adequate hostelry at this time when the need is so imperative.

We are of the opinion that every man who listened to the Samson officials outline their plans for the future, after reciting their progress in the past, is ready right now to do his share in putting the hotel proposition over with speed and certainty. Now is the time to get together an organization so that when the holiday season has passed, we can all take up the hotel matter with energy, and stick to it until it is an assured fact and not a mythical suggestion.

### THE IMPUDENCE OF HIM.

In view of his record of bad deeds, one would be inclined to believe that he would accept at face value the declaration of Alexander Berkman that he and his outlaw crew of anarchists love the United States. Facing deportation, it would look as if Berkman were trying to arouse pity by professions of patriotism. The situation recalls the couplet of Rabelais:

"The devil was sick—the devil a monk would be;  
The devil was well—the devil a monk was he."

During 20 years or more of residence in the United States, Berkman has had ample opportunity to show his love for the country. But what do we find in examining his career here? That most of the time he has been in prison for flouting the laws and the constitution, his crimes having ranged from attempted assassination to obstructing the operation of the selective draft act.

The time for bandying words with this anarchist has passed. But his statement that he and his ilk objected to the laws passed as war measures because they considered that these enactments were aimed directly at them, is perhaps entitled to a word of comment. There would have been no such laws if the anarchists had shown a disposition to help the United States prosecute its righteous war against despotism for the welfare of humanity. The fact that Berkman himself was convicted under these laws for trying to hamper our efforts in the war is sufficient proof of the necessity of the measures of which he complains.

The impudence of him!

### DRAWING THE LINE.

John F. Kramer, federal prohibition commissioner, in a speech in Washington on the subject of enforcing the "dry" law, called attention to a phase of the situation that is entitled to emphasis. The line of demarcation, he said, is no longer between those who favor prohibition and those who do not, but it is between those who are in favor of obeying the law and those who will be ready and anxious to violate the law.

That sums up the whole matter. The law-abiding citizen who is opposed to the principle of prohibition will just as carefully obey the law as one who endorses it. Another who, because it violates his individual conception of personal liberty, seeks to evade it, aligns himself with the criminal element.

If one does not like the operation of a law he has a right to seek its repeal by legal means and none may challenge his course, but if one defies a law as applied to himself he sets a precedent for the repudiation of all law.

The boundary line between good citizenship and

THE LIGHTS.  
There are dazzling lights that flash in trade  
And in reds and greens are men's wares displayed.  
Oh, the sky glows bright when the night slips down  
And the lights are lit in the gaudy town.  
And over the faces of buildings tall,  
High on the roofs and on many a wall,  
There are numberless brilliant tongues of light  
That speak to men as they pass at night.

The wares of their masters they shriek aloud.  
They swirl and dance for the noisy crowd.  
They do mad tricks to attract the eye  
And they flaunt the products they'd have us buy.  
"This is a theatre!" shouts a sign,  
And the stars are paled by the flashing line.  
And a million lights are on fire to tell  
The story of something that mortals sell.

But far away on a quiet street  
There are gentler lights for the eye to meet:  
There's the shaded lamp in the sick child's room  
That sends one ray through the night of gloom.  
And the brighter light in the kindly hall  
Which gives a welcome to all who call,  
And the cluster of lights in the ceiling dome  
Which tells the joy and the peace of home.

Oh, the lights of the street are fair to see,  
But their brilliance has little of charm for me,  
And the eye grows tired of the dazzling flash  
That is flamed there in the name of cash.  
I'd rather the one little light afar  
That shines for me where my loved ones are.  
Than all of the lights in the noisy town  
When the day is done and the night slips down.

## 226 BUSINESS MEN LOOK OVER SAMSON PLANT; SEE GROWTH

(Continued from page 1.)

moving just as fast as Samson is and Janesville can move just as fast as Samson Tractor can. To do this, the mayor stated that it has been necessary to cut "tax traps" at every angle and it will continue to be so, especially in making sudden decisions without the authority of the council with the expectation that the city legislators would approve his action.

"Some people will squirm under new and heavier taxes," he said, "but we shall soon forget them in the new era. I am resolved, and I know you are resolved, to meet this situation."

In showing how much can be expected of the growth of the plant in the future, Mr. Craig illustrated how the plant has increased since it was organized March 20, 1918, until now it employs 1,535 people—1,135 at Spring Brook, and 400 at the Janesville Machine company. Negotiations were opened in April, 1918; property was acquired in May; in June and July, Mr. Durant visited the city and laid out the plan. The building had no sooner got under way, however, than the war department called a halt for the duration.

That war, however, did not again get under way. The first tractor was turned out in May. The second model has been produced in the city and laid out the plan. The building had no sooner got under way, however, than the war department called a halt for the duration.

"This shows how rapidly we can move when we want to," said Mr. Craig. "Plans are to make Samson the largest single unit of the General Motors. It will become the largest industry of farm machinery in a reasonable length of time. You can judge our future."

### King Tells of Progress.

To further convince the local business men of what to expect, the president of the company called upon several heads of departments. A. D. King, factory manager of the tractor plant, declared that within a month a new conveyor system, an assembly system has been completed, model "M" tractors will be turned out at the rate of one every four minutes, or 15 in an eight-hour day. A second conveyor system will be installed for the assembly of the Model "D" or "Iron Horse," at about the same rate.

The estimated capacity of the plant is based upon the influx of orders created by the sales department. W. J. Clark, general sales manager, stated that there was a world-wide demand for the Samson product even before manufacture was started.

"We had 10,000 applications for the dealer's proposition before a machine had been shipped," he said. "The sales force is now covering 12 states and is constantly adding to its force. Tonight a representative of our department will go south to open up the Mississippi valley states. Orders are pouring in from every part of the globe where United States mails penetrate," he explained.

Lowest possible cost of production is essential to the manufacture of tractors, said Mr. Clark, who added: "If you people make it expensive and difficult for us to operate and live here, you are working against this very big economic idea."

The economic idea he referred to was the eradication of the horse upon the farm, to put the "four legged brute out of business." The purpose in the manufacture of two kinds of tractors and a truck is to replace seven horses, their harness, and farm wagons, at the initial cost of all.

Anten, Gen. Plans.  
What is to become of the Janesville Machine company, the forerunner of the new industry, was not left out of the program.

Manager of this plant, located in the business section of the city and making a line of farm implements, explained that, inasmuch as the tractor is merely a power plant, Samson's

sales force makes it a point to sell a plow with every machine. Therefore, he stated, just as many plows will be made as tractors, and to do this a new plant, 620x540 feet will be erected on Industrial avenue, Spring Brook.

While all this planning for production is being rushed forward, the employees who make it possible are not being forgotten. The Samson belief is that they must be taken care of, given good treatment, so that they may find work a pleasure and do it well. To accomplish this, a department in charge of L. A. Markham has been created. In speaking of it yesterday, he told how 1050 are housed in the barracks-camp near the factory buildings and are fed in the large messhall. Those present got an idea of their living conditions through partaking of the same menu at dinner in the mess hall.

This department seeks rooms for those men desiring to live with families in town, and encourages them to plan to buy a home on easy terms; provides a reading and writing room, and in the near future will establish a night school, and encourages the men to take an active interest in the affairs of the city. Mr. Markham stated that he will cooperate with the Chamber of Commerce in negotiations with the men with the merchants of the city, and asked that the citizens of Janesville take an interest in these men and their plans, and into the social, club and civic life.

Profit Sharing Plan.  
In addition to their physical and mental care, the financial welfare of the men is also considered. A plan has been involved, as told by S. J. Zapf, of the thrift bureau yesterday, whereby the General Motors plant will make each month an amount equal to that which a man deposits in it. In five years, if a man deposits \$100 monthly, he will have \$6,000.

He should be able to leave the company a year after starting his account he gets interest at 6 percent, compounded semi-annually. If he leaves two years after, he gets the interest and one-fifth of the five-year privilege, and so on for each additional year. This system also carries a local benefit.

To more plainly illustrate what they may expect in the growth of the industry, the guests of the occasion were taken to the assembly plant, after the program at the messhall. The severe cold denied inspection of the outdoor work.

Expressions of surprise were common when the crowd, in groups of 25, walked from the modernly furnished office lobby into the 40x5000 foot factory with only large oak-colored doors separating. From the orderly quiet of the commercial side of the business they emerged into a pandemonium of confused noises. The change was at first not easy to comprehend. The thrashing, putting of gears and motors in new tractors, the shrill bells of rushing electric trucks carrying heavy machine parts shooting in and out of corners, and of crumpling and twisting the whir of hundreds of belts; the shrieks of great grinders and lathes sending forth showers of sparks; the roar of a blast furnace as it cooled highly heated steel—all these things entered into the scene at once.

But a closer examination revealed wonderful system in operation. The confused stacks of parts were no longer confused. The noises softened with accustomed ears. These men working furiously below overhead traveling cranes were laboring against time, not going madly through operations.

The guides first took the visitors to where hundreds of new gasoline engines were stored awaiting assembly, then down the length of the great room to watch a finished tractor in operation. They were shown the new "Iron Horse," and how it is operated by "reins." A light farm truck was rolled up to complete the group of Samson power products. A demonstration followed to show how the tractor may be used to do the numerous farm chores by the mere attaching of a belt.

See Machines Assembled.  
Then to the actual assembly of the machines. Each machinist with his particular piece to do, the parts are gradually brought together, the pushing several feet ahead for the next man to add some more. First the motor and transmission; then the seat and radiator; the tank and mud-guards. The wheels and steering gear are next attached. All this while the growing machine swings by hooks from an overhead trolley, pushed several feet ahead for the next man to add some more. A few

## TWILIGHT CLUB SPEAKER DELAYED; RUSSIA DISCUSSED

The breaking down of a locomotive south of Beloit, prevented H. Walton Heegstra, Chicago, founder of the advertising firm of that name, from reaching this city last night to address the Twilight club at its regular meeting. He was to have talked on "The Need of the Hour."

In the hopes that the train might get to Janesville in time for Mr. Heegstra to speak, discussions on various topics were held until 9 o'clock when it was definitely learned that the visitor would be unable to arrive before midnight. L. A. Markham, head of the personnel department of Samson Tractor company, told of his experiences in Russia, and called upon America to lend her support to that struggling people.

The subject brought up many arguments for and against the United States taking any further hand in the affairs of European countries. Some of the members held out for America cleaning up its mangle in those of other countries, while others said that the United States can do both. From the opinions expressed, the consensus was that the United States should lend educational support to Russia, but little more.

## Marinette Has Lost Chance To Form National Guard

Marinette, Dec. 10.—Marinette will decide Thursday whether or not it will name company I of the Wisconsin national guard. Tomorrow evening will be the last chance for this city to put itself on the honor roll according to information received from the adjutant general's office at Madison. Two months ago when the campaign was launched for a local company interest was high for a week or so and 30 members were signed up. Since then interest has dropped. Thursday night will "make or break" the company, according to officers here.

## Auto Factory to Reopen Under Gasoline Power

Detroit, Mich., Dec. 10.—One of the largest automobile plants in the city, compelled to close by the orders of the national fuel administrator, will attempt to reopen tomorrow with gasoline furnishing the motive power to operate its machinery. Hundreds of automobile motors will be hooked up to turn the factory wheels.

Employees in 21 departments have been ordered to return to work Wednesday morning.

Eau Claire.—Eau Claire is among eight first class landing fields selected by the all-American pathfinders, Maj. O. L. Haldinger of the air service in command, who have just ended at Port Snelling a tour of the United States for aerial routes and landing places.

finishing touches, and your tractor is ready for the market.

This process applies to the model "M." That for the model "D" is along the same general procedure.

While the way of assembling is now from the overhead trolley, an endless chain-like conveyor, clamped to the floor and constantly moving at snail's speed, will be in operation within 30 days. It is this contraption, which will be used for the model "M" and one for the model "D," which will make possible the one tractor in four minutes output. The initial parts are fastened to it and the others added in rotation leaving three feet between tractors. The "track" passes through a point shed after some hundred feet and then drops into a pit, or kiln, where the paint will be dried until high heat, and then upon emerging rises again with the completed machine ready to be detached and rolled away for storage or to the market.

When this conveyor is completed, the trolley will be dismantled and in the space now used for assembling, machines making the parts of the tractor will be installed. At present the motors for the tractors are made at other plants of General Motors, but the eventual plan is to make them here. Installation of machinery is fast nearing completion.

Eau Claire.—The recent ruling of the United States commissioner of internal revenue that games and entertainments given by educational institutions to which admission is charged were exempt from the luxury tax on amusements will result in the refund to the local high school of close to \$500, according to Prin. L. A. Bu Dahn. When the tax was first levied in 1918 Principal Du Dahn held that schools were exempt and made no returns. Later he was notified of failure to pay \$80 and the fine on this brought the total amount to \$250. Since then the tax has been paid regularly. Prin. Bu Dahn expects to get it all back, including the amount of the fine.

In 1914, the year the last manufacturing census was taken, there were 275,000 manufacturing establishments reported. The census bureau expects about 300,000 establishments to be listed in 1920.

# Continuity of Service

**T**O the motorist whose car goes purring along the road, there is a feeling of security and satisfaction as he senses the smooth, even flow of power, under complete control.

The quiet, efficient engine under the hood, doing its full duty every minute, symbolizes the necessity for Continuity of Service.

The titanic pumps which supply the city with water, the elevators in a tall building, the sewing machine in the home give satisfaction only when they can render a Continuity of Service.

The Standard Oil Company (Indiana) has perfected a Continuity of Service in the manufacture, distribution, and sale of petroleum products.

Its large refineries, where the wants of the Nation are being anticipated years in advance—its vast storage tanks, where large quantities of oil are held against a possible urgent demand, its comprehensive system of distribution, whereby the wayside tank and pump assure an unbroken supply of fuel to the transcontinental motorist—all these stand for that Continuity of Service, without which the high-gear life of the present day would be impossible.

This Continuity of Service which sends the wheels of progress purring along is but a phase of Standard Oil Company (Indiana) effort to discharge satisfactorily and completely its obligation as a public servant.

## TEMPERATURE MAKES SUDDEN NIGHT DROP

Sweeping eastwards through the Mississippi valley the coldest wave of the season took the city of Janesville in its grasp during the night. The result was a drop of 30 degrees in temperature. Although the coldest morning of the year, there was little wind to evidence.

The lowest temperature reported in the county was 24 degrees below zero at the home of John Nixon, town of Janesville, at 6 o'clock this morning.

Day Police Captain George Champion stated this morning that the thermometer at his home on Center street registered 19 degrees below zero at 6:30 a. m. The thermometer on the corner of Fifth and Milwaukee streets registered 20 degrees below zero at 6 o'clock this morning according to Thomas Platten, janitor at the Y. M. C. A.

**Those Christmas Checks**

Tomorrow we mail Christmas checks to all the members of our 1919 Christmas Club.

There are a large number of checks and they represent many thousands of dollars. This money will bring a great deal of happiness during the holiday week and much of it will be used for other purposes or deposited again at interest.

Ask any member of the club what they think of the plan. If you are not a member why not join now for 1920.

The new supplies are here now. You can start this week—for any amount you wish when the money is divided next December.

## TRACTORS OPERATED TO CUT USE OF COAL

Model "M" tractors were pressed into service down at the Samson plant to effect a saving of electrical power and a resultant conservation of fuel. Six machines were mounted on blocks today and belts were attached to operate the huge drive shafts throughout the tractor manufacturing units. More tractors may be utilized in this way later.

By turning machinery with the Samson engines, officials considered a great saving of coal would be effected daily.

**PAPERS DELIVERED IN SPITE OF STORM**

Delivery of the Gazette to Evansville was made again last night by the use of an automobile because of the withdrawal of train service. As a result, the papers were received by the subscribers at that place hours before those from any other city.

Efforts to get through to Hanover, however, proved futile. The car did not get any farther than five miles from Janesville when it was blocked in a snow drift and had to be abandoned, the occupants having to phone here for relief and another machine to bring them back.

## FORMER EVANSVILLE RESIDENT SUCCUMBS

(By Gazette Correspondent.)  
Evansville, Dec. 10.—Richard Williams, Viola, and until last March a resident of this city, passed away at his home early this morning. His body will be brought here for burial Friday afternoon. Funeral services will be held Saturday afternoon. Richard Williams was born in Radnorshire county, Wales, Oct. 25, 1846. He came to this country in 1899 and settled in Ohio. Moving to Albany he was married July 7, 1878 to Miss Mary Kinsey. Most of his life was spent near Viola. For the past 9 years, until last March, he lived in Evansville.

He is survived by his wife and six sons, Elmer, William, John, and Ben. Viola, Colby and Dan, Evansville, also six grandchildren. A daughter and son preceded him in death.

**New Rotarians Are Given Instructions**

Several new members were taken into the Rotary club at its weekly meeting today and were catechized on the aims of the club. The obligation of service to the community was impressed upon each.

Among the guests at today's luncheon were Alexander Galbraith, Edmonton, Can., who acted as a judge at the recent stock show at Chicago; and Mr. Clay, sales manager of the truck and automobile department of the Samson Tractor company, mated, that he feared the board

### Railroad Man Killed When Caught between Two Cars

[BY ASSOCIATED PRESS.]

Madison, Dec. 10.—In the face of a blinding snow storm Joseph Winkler, car tester of the Chicago and Northwestern, had stepped in between two cars of a switch train in Monona yards early this morning to make an adjustment of the coupling hose. Members of the crew, unaware of the fact, signalled the engineer to move the train ahead and Winkler was killed. The body was dragged some 70 feet.

## Heart and Home Problems

BY ELIZABETH THOMPSON  
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: I am twenty years of age and have been married six years. My husband and I have been parted three times and were separated two years the last time.

Now I am trying to live with him again and he is as mean as he was before we parted. I have worked ever since we were married and gave him my money before we were parted. He gambled it away and drank it up and now he is wanting my money again. Do you think I ought to give it to him?

He is so jealous he can't stand me out of his sight and he has no cause at all. Do you think I ought to try to live with him when he abuses me? He has always seemed to care more for others than for me. He was in the army and corresponded with another girl all the time.

I cannot love him to save my life. Do you think I ought to try to live with him?

A man should not want his wife to work, but if she does find it necessary she should certainly have the benefit of the money she earns and not give it to her husband.

I believe you would be justified in leaving your husband again. Do not, however, make the mistake of going back to him again. You have proved by many trials that you are not congenial.

Dear Mrs. Thompson: I am seventeen and am going with a fellow the same age. He has never gone with a girl before and is very quiet. Should I invite him to my home and talk to him?

He does not dance with me more than twice a dance. What can I do to make him dance with me more often? I believe he thinks I do not care for him.

Is it right to praise a fellow?  
JOLLY JERRY.

If the young man wants to call at your home he will do so without asking. He himself will suggest coming. After he has taken you somewhere, however, you might suggest that he come to see you sometime.

If he takes you to a dance and dances with you only twice, ask him why he doesn't dance with you more often. In case he does not take you he is not supposed to dance with you oftener than twice.

Subtle praise is all right, but you should not make it too broad. To praise with tact is quite an art.

Dear Mrs. Thompson: Is it proper to invite a wounded soldier friend some distance away to come and spend several days over Christmas at my home? I met him some time ago and have introduced him to my two soldier brothers who have also been overseas and they seem to like him very much.

Is it right to accept money from him to go to see him when he cannot get a furlough? My brother would accompany me.

What would be a nice Christmas present to send him? BUTTONS.

Have you brothers or your mother invite the soldier. It would hardly be fitting for you to do so.

You should not accept money from the young man under any circumstances. Cheer him with your letters, but do not try to visit him.

He would probably enjoy a book for a present more than anything else.

Dear Mrs. Thompson: I have corresponded with a girl for four months. Do you think it would be all right to send her a Christmas present? If so, what would you suggest?

Send her a box of candy or a book.

## FOR THE COOKIE JAR.

Fruit Cookies—Two cups powdered sugar, one cup butter, two cups chopped raisins, two eggs beaten light, two teaspoons baking powder, one teaspoon nutmeg, one teaspoon cinnamon, one teaspoon soda dissolved in four tablespoons sour milk, flour to make dough stiff enough to roll out.

Outmeal Cookies—One cup lard, one and one-half cups brown sugar, two eggs, three cups oatmeal, one-half teaspoon soda, grated rind of a lemon, flour enough to thicken.

White Cookies—One cup cream, one cup sugar, one teaspoon soda, grated rind of one lemon. Flour to make dough stiff enough to roll out.

Peanut Cookies—One-quarter cup butter, one-half cup sugar, one egg beaten light, two tablespoons milk, one cup flour, two teaspoons baking powder, three-quarter cup chopped peanuts.

Mix in order given. Drop on buttered tin, a teaspoonful in a place; set a whole piece of nut on top. Other nuts may be substituted.

Orange Cookies—One-half cup butter, one cup sugar, grated rind of orange, one egg beaten light, one-half cup orange juice, three cups flour, two teaspoons baking powder.

Mix in order given. More flour may be required. This recipe makes a soft cookie; for a crisp cookie use but one-quarter cup of orange juice.

Lady Fingers—One egg, one-third cup sugar, one-third cup flour, one-third cup milk, one-third cup oil, one-third cup vanilla, one-third cup baking powder.

## She Married an Average Man

By ZOE BECKLEY.

The letter was from Eric Sands—not from my husband. I could feel Athena's eyes on me as I snatched it from her hand and tore open the envelope.

"Ann, you're an odd little bird," she said, casually indifferent to the fact that I was eager to read Eric's letter. "I knew you were not a publisher stamp woman even when I saw you first out in Centerville. I knew you had individuality. But I didn't think you would take to life so quickly. A year ago you would have been scandalized at receiving a love letter from a man not your husband."

"It's not a love letter," I murmured, already half way through it. "I bet it begins, 'Dear Little Human Flame,' or something like that. I'm not poking fun, dear, it's only that I know types." And Athena omitted one of her eloquent chuckles, of which wisdom, fun and sympathy were component parts. Athena never offends because you feel she always understands.

"Not far wrong," I answered absently, for I was too deeply engrossed in Eric's words to heed Athena's. "Dear Fire and Snow," he wrote, "I shall not harness you with a long letter. I know you are troubled and need rest. And that is what I want to give you."

"Try and think of me not as a person, but as a grassy hillock beside a sunny sea. Soft breezes blow gently, but with strong, comforting arms. There is a tang of salt in the air and a faint scent of flowers. No hurry, no noise, no one about but you and the little grassy hillock which gives you peace—and it is I, remember."

"I know exactly a place like this in England—in Cornwall. There are wee stone cottages with brilliant gardens and fat cats purring in the sun. Think of it, little woman, tormented with a hundred pestering duties and problems, it will bring you rest, just as the thought of you brought rest to me as I lay in the

to Jim, with his strong body, his good equipment, his stubborn yet not always well-directed will—all the things I liked about him and all the things I didn't. And his conventional, maternally biased, energetic, uninteresting mother. It only

"Well, enjoyed your epistle from the Briton?" shot Athena, returning to the porch and scattering my half-formed thoughts. "Just don't bother to tell me, child! To bed with you; I see you're in the mood for sleep. Eric's a nice boy, but he's no nearer perfection than the rest of us. Tomorrow I'll tell you his weak link, if you haven't found it out for yourself."

I must read his letter again before I put out my light.

## ...The... Devil's Own

A Romance of the  
Backwater War  
BY RANDALF PARISH  
Author of  
"Contraband," "Shen of the  
Irish Brigade," "The Wilder-  
ness King," etc.

Copyrighted A. C. McClurg & Co.

"A keelboat operated by steam?"  
"Couldn't say as that," said  
Mapes. The current had gone down  
when I got on deck. Had four aboard  
but we got 'em all off 'n' stowed 'em  
back there in the Texas. You better  
get along now and check those wet  
clothes."

The captain turned rather sharply  
away, and I was thrust through an  
open cabin door into the Texas. The  
mate, before I could really sense the  
true meaning of this unexpected  
news. Mapes paused long enough  
to gruffly indicate a course stiff of  
the clothes draped over a stool, and was  
about to retire without further words  
when I recovered sufficiently from the  
shock to halt him with a question.

"I suppose you saw those people  
picked up from the keelboat?"  
"Sure; helped pull 'em aboard. A  
d—d queer combination, but both  
men, two nigger wenches. Joe  
Kirby an' a deputy sheriff from  
down St. Louis way."

"Two women, you say? Both ne-  
groes?"  
"Well, that's what Joe said they  
was, an' I reckon he knew. However,  
one o' 'em looked as white as any-  
body I ever saw. The deputy he to-  
ther was a white man, an' the de-  
puty who Kirby got from an ol'  
plantation down below, some French  
name, it was. Seems like the two  
wenches had put away an' the de-  
puty had caught 'em, an' was a-takin'  
'em back. Kirby cum 'long ter help,  
bein' us how they belonged ter him."

"You knew Kirby, then?"  
"Not, or I wouldn't have let many  
river men who don't I reckon. What  
is it to you?"

"Nothing; it sounds like a strange  
story, that's all. I want to get this  
dry clothing now, and will be out on deck  
presently."

[By Gazette Correspondent.]  
Milton Junction, Dec. 10.—O. G.  
Crandall has left for Battle Creek,  
Mich., for a few days' visit. He will  
then go to New York state to spend  
the winter with his daughter.  
Mrs. Mary Weaver is in Janesville  
at the home of Mrs. Henry O'Leary.  
Mr. and Mrs. Pat Fanning an-  
nounce the birth of a son, born Wed-  
nesday.

Alec Shuman has sold his interest  
in the meat market to Mr. Laubsch,  
who will conduct the business alone.  
Mrs. Mary Weaver has sold her restau-  
rant to Durwin McWilliams. Mr. Mc-  
Williams has moved here

## WITH THE WOMEN OF TODAY

Mrs. Frances Taylor Patterson is doing a work which is unique not only among women, but among men as well. She is conducting the department of photoplay writing at Columbia university, in New York City. Mrs. Patterson is so very youthful and attractive that one might take her for an actor of photoplays instead of a professor. In defending her youth Mrs. Patterson always quotes words of a famous producer uttered upon meeting her, "A young art ought to have a young professor to teach it."

The art is indeed young. Columbia was the first university to realize that the photoplay as an art form is as dignified a study as the drama or the short story, and as useful professionally as mathematics or sociology. In 1914 courses in photoplay composition were established and have been maintained with ever increasing registration since that time.

Mrs. Patterson took up photoplay study when, as a teacher, she discovered that her pupils were far more interested in the film than in the book. She then did a little research and that led her to the photoplay department at Columbia where she has been teaching and lecturing for the past three years. The department has grown so rapidly that there are now five courses offered. In addition to these Mrs. Patterson has been assisting by the home study department of the university to give a course in photoplay writing for the benefit of those who cannot attend the college lectures. More than 100 students are attending the lectures during the present term.

"Columbia holds to the cultural idea in teaching photoplay writing, rather than the commercial," explains Mrs. Patterson, "but tries wherever it is possible to make the two compatible. Hence it is that many students of the courses have been professionally successful in the motion picture field. Scenario editors, producers, directors, come up to the university from time to time to talk to the students from the commercial angle."

The photoplay department at Columbia boasts an interesting library. It contains a collection of stills of photoplays already produced, scenarios and continuing books, a card catalogue of the photoplay market containing the names of the sort of material wanted by producing companies, and probably the only complete list in existence of the short stories, novels, dramas and poems that have been put upon the screen up to the present time.

**PLAN HOTEL FOR GIRLS**  
As a result of an appeal made by 40 young business women to the convention of the New York City Federation of Women's Clubs recently,

Mrs. Frances Taylor Patterson.

for aid in finding places to live, the federation will take steps immediately to obtain a hotel which will accommodate at least 250 girls. This will be done through the committee in charge of the present City Federation Hotel for Working Girls, of which Mrs. Eleanor B. Clogau is president.

"We will set about raising the money for the new hotel immediately," said Mrs. Clogau, "beginning through our 70 auxiliary clubs whose members each pay \$1 a year for the support of the hotel. There are about 325 clubs belonging to the federation, and if each would become an auxiliary, our opportunities would be greatly broadened. We shall try to reach club women in all parts of the city, for there is no more important work that can be done than finding places where women who work may live at reasonable rates, and we hope to raise the money in a short time."

country they were going to visit must look like Jack. Jack thought of the Greek bootblacks he had seen in the city near Make Believe town, but decided that they couldn't look like the folks in Greece because they wore clothes like the other folks in America did. Signor Angelo had told the children during the afternoon that the native Greeks wore queer costumes with tight trousers, short skirts and funny little short coats or jackets with fancy work on them.

The next morning Jack and Jane were up bright and early and were ready for breakfast as soon as Captain Brave and the others were. They all had breakfast together in the big dining room of the hotel. Before they left the table Signor Angelo surprised the children by giving each of them the most wonderful ring they ever had seen. Each ring had a diamond and two rubies in it.

"I don't want you to forget Come and I when you leave," said the wealthy Italian. "Whenever you think of Italy try to think of the good times you had in Come's and the fun we had in Switzerland, and don't think about the kidnappers."

"I'm sure we will never forget you or the good times we've had," said Jack and Jane. "And if the kidnappers hadn't carried us away we wouldn't have had half so many thrilling things to tell everybody when we get home."

Captain Brave had looked over his

amulet and the two rubies in it, so, as soon as he had filled the gasoline tank and had put the drawers of clothes into the little room in the lower part of the plane, he had the children into the big machine, helped Ladybird in and then climbed into his place. The engine sputtered and the plane started to move.

The big plane slid along the ground for a little way and then rose into the air. As it left the ground Captain Brave waved around the leading field the children waved a last time to Signor Angelo and Come down on the ground and then Captain Brave headed the plane for Greece.

## Riddle of the Stain

A water circle on a silk dress may spoil it. The knowledge of one simple fact will save it. The stain of black walnut has baffled men and women for centuries. One individual's knowledge of a chemical reaction solved the problem for the multitude.

The trickiest closer than a brother. Its removal requires turpentine or chloroform—properly applied. A scorch may be regarded as beyond the hope of eradication. Dampen it and put it in the sun and it may disappear. Paint, mud, rust, ink, grease, fruit stain, coffee, bluing—almost any calamity that may befall a piece of wearing apparel—each has its antidote. A benevolent Uncle Sam has realized that members of his hundred million household have worried much over the accidents that befall its clothes. He has set many scientists to unraveling the problem of their restoration. He has evolved a book which explains most of the riddles. It is entitled

## 14 Hens Lay 13 Eggs a Day. Easily Done

Mr. Moore's Hens Lay When Eggs Are Scarce. Here's the Plan.

"I had been getting 2 or 3 eggs a day from 15 hens. Then I commenced putting Don Sung in the feed, and am getting 11 to 13 eggs a day, with one hen setting. Don Sung is the best thing I have found for making hens lay."—E. L. Moore, 818 Clayborn St., Danville, Va.

Mr. Moore used 40 cents worth of Don Sung in January. Figure his profit with eggs selling around 70 cents a dozen. And this is no better than Don Sung is doing for thousands of others. Accept our offer just as Mr. Moore did.

Give your hens Don Sung, and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

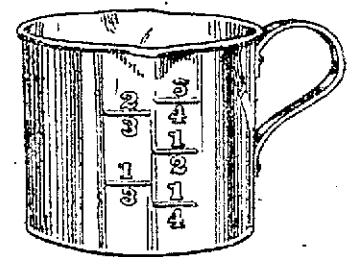

Try Don Sung for 30 days and if it doesn't get you 12 eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Duggan Co., 249 Columbia Bldg., Indianapolis, Ind.

## THE WISHING PLANE

Jack and Jane spent the afternoon of their last day in Naples writing letters to father and mother, back home in Make Believe town. Dr. Cheer of Beautiful Island, King Charles and Queen May, the Widow Ann, Jeanne and the other friends they had met at other places they had stopped. Of course the children had to tell all of them about the kidnapping. Ladybird wrote a bulky letter to mother, too, telling her for

the first time about the stealing of the children and of their rescue, all safe and sound and healthy. She was very sure, too, that she told mother not to worry about any more harm coming to the children, explaining that every member of the band had been caught and put in jail.

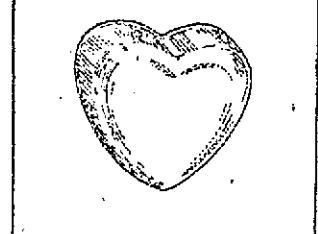

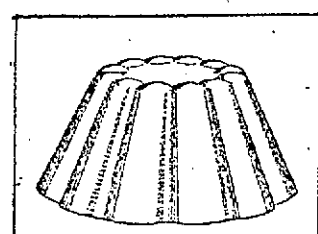

Soon after dinner Jack and Jane said goodnight to everyone and climbed into their beds and fell asleep trying to decide what the

## THIS CUP FREE

This Jiffy Measuring Cup is free to users of Jiffy-Jell. Just send us the end labels from two Jiffy-Jell packages—the labels naming the flavor—and we will mail the cup.

This aluminum cup holds exactly one-half pint. Fill twice with boiling water to dissolve one package Jiffy-Jell. It also holds exactly one cup, as called for in many recipes. Ordinary cups so very in size that many recipes are spoiled. So this exact cup, with markings showing fractions of a cup, is essential in every home.

Crushed Fruit Desserts  
Delightful Dainties at Trifling Cost

## Free Dessert Molds

These Individual Dessert Molds come in assorted styles, six to the set. The six will serve a full package of Jiffy-Jell. We send the full set for 5 end labels. The molds are aluminum, and the set is worth 60c.

We make these offers to show more women what Jiffy-Jell means to them.

Jiffy-Jell differs vastly from other quick gelatin desserts. Each package contains a bottle of condensed fruit juice.

We crush the fruit, condense the juice, and bring you real fruit in abundance in these Jiffy-Jell desserts.

That's the important point. Flavor is mere taste, and often artificial. The fruit itself is rich in earthy salts. Everybody needs it every day.

## For a Few Cents

Fresh fruit and canned fruit are expensive. Here are rich fruit dainties which are not.

And they are rich in fruit. Half a pineapple, for instance, is used to flavor one Jiffy-Jell dessert. Then almost a whole lemon is used to acidulate the mixture.

Yet a package of Jiffy-Jell serves six people in mold form.

and twelve if you whip the jelly—all for a few cents.

It is also quick. Simply add boiling water, as directed on package, then the fruit-juice flavor from the vial, and let cool.

Millions are using these quick, economical fruit desserts, and no home now should miss them.

## Try These Flavors

Try Loganberry and Pineapple for desserts. Try Lime-fruit flavor. It makes a tart, green salad jelly. Mix in your salad before cooling. Or mix in meat scraps and make an appetizing meat loaf.

Try Mint flavor. It makes a zesty mint jelly to serve with meats or as a side dish.

Try them now. Then send us the end labels which mention the flavor, and get the Jiffy Cup and any of our molds.

See the coupon. Cut it out so you won't forget.

## BESLY BASKETBALL TEAM BEATS SAMSON BY SCORE OF 39-14

Samson basketball five went down to defeat before the Besly aggregation, 39 to 14, at the gymnasium of Beloit college last night before a crowd of 200 people.

Though it was the opening contest for the Tractor City team, they showed to good form for a bunch that has never played before against an outside team. Fast basketball on both sides was put forth. After a spirited set-to in the opener, the first half ended with the score 15 to 9 in favor of Beloit. However, the line city crowd ran away with the second half, piling up 12 baskets, while the local players were made to look sick while getting only five points.

Richards and Harman starred for Samson, making all the score, while Belmer, Besly left guard, despite the position, he played up practically all the points for his team.

For played at center for Samson until Huncley took his place. Davey and Philo played guard. Hunter and Bigelow forwards.

Samson Tractor will play its next game here on Dec. 17, against P. E. Yates of Beloit.

## ARCADE BOWLERS ARE STILL IN LEAD

Aracade bowlers continued their winning streak at the alleys on North Main street last evening, winning three straight games from the Lawrence Lunch team. Lead was high man for the Arcades, scoring 207. Merrick led for Lawrence's, rolling a total of 203.

The Gazette team won two and lost one game from the Samson Tractor team. Kueck was high man for the Gazette team, rolling 204. Cook scored high for the Tractor manufacturers with a total of 203.

## BRINGING UP FATHER

## As You Were!

—BY—  
BUCK  
Of the STARS AND STRIPES A. E. F.

REUNION  
I have read the touching ballads  
Of the receding sweet  
That is stirred by smile and hand-clasp  
When two former buddies meet.  
How the eyes grow dim and misty  
As the reminiscing pair  
Wake to life the haunting memories  
Of their friendship over there.

Vanished is the sterile present.  
While once more the comrades go  
Marshaled by the Great Adventure  
Down the dipping road to Vaux.  
Once again they yearn and suffer.  
Once again they drink and dance;  
Re-transported by the magic  
Of the friendship formed in France.

Thus, or like it, runs each story  
When, in civies, vet meets vet.  
But I boast a glad reunion  
With a buddy, better yet;  
What a welcome when I meet him!  
How my smile expands, allures,  
When he whispers in his grill-room,  
"Anything you order's yours!"

Some people seem to think, says ex-Sergeant SOL, that if we don't have a wet, white Christmas this year we may have a dry, red one. But with the coal-bin empty, Santa Claus is liable to miss a lot of chimneys.

POST-ARMISTICE TRAGEDIES  
The scene this time is Paris. Two discharged privates are standing in front of one of the big hotels. One of them must have had mileage to San Francisco, for he is dressed in everything that the army forbids, from spats to bamboo walking-stick.

It is obvious that both have dined well.  
Suddenly the gaily attired citizen reaches out and with his cane smartly taps the arm of a man in uniform standing near the curb.  
"Say, starter!" he calls out in a lordly manner, "get me a taxi!"  
The gentleman addressed turns about, and there is a brief flash of recognition in the other's eyes. The man in uniform is apparently controlling his temper at the risk of bursting a blood-vessel.  
"I am an American officer, and—" he manages to pant.  
"Oh, in that case," says the gentleman lately of the rear-rank, "don't bother about the cab."

GENERAL VAN ROUGE POST, NO. 1.  
(From the Stars and Stripes, Washington)  
Paris, France.—More than 100 ex-service and active Army men gathered at a cafe here the other night and with enthusiasm organized the Latin Quarter Post of the quartermaster corps.

We wonder if there's a ladies' auxiliary.  
"FOR THE DURATION"  
Brig. Gen. Lord told this one in our humble presence, and we pass it along.

It was after the armistice and an outfit of stevedores had struck. The Sergeant reported them and the ringleaders were ordered before the Top.  
"What's all this row, boys?" he inquired.  
"We done quit. War's over. We don't obey no more commands."  
"Did you enlist for the war, or the duration of the war?" he asked in impressive tones.  
"For the duration," admitted one of the strikers.  
"Well, you-at go on back and report for duty. The war's over, all right. But the duration's just begun."

KEEPER OF THE PEACE-DOVE, MAXIE  
"Pigeon" is the latest in the army. We hope that the insignia for this grade will not be the white feather.

Waupun.—The ministerial association of Dodge and Fond du Lac counties except the city of Fond du Lac, met in Waupun Monday. The group entertained the visiting pastors at dinner. Addresses on the program, included "The Church and Amusements," by the Rev. John Reynolds, Beaver Dam, and "The Attitude of Jesus Toward the Social Problem," by the Rev. David L. Holbrook, Ripon. About 40 attended.

## TWENTY YEARS SEARCH ENDED

Finds Health In Tanlac After A Very Long Illness

"It has taken six bottles of Tanlac to overcome my troubles but now for the first time in twenty years I feel like a man ought to feel," was the statement made the other day by Emil Zeh, a well-known machinist employed by the Leffelholtz and Company Brass Foundry, who lives at 206 Lake Street, Milwaukee, Wis.  
"It was about twenty years ago that my stomach first began to trouble me," continued Mr. Zeh, "and since then my health has been getting worse in spite of all I could do. I could eat hardly anything that would agree with me and right after every meal my food would sour and cause gas to form and it would press up into my chest so bad that it seemed like I would suffocate. My heart would palpitate so much that I thought I had heart trouble, and at times my heart would be beating awfully fast and then all of a sudden it would stop and make me feel like my time had come. I could retain hardly a thing on my stomach and all the time I was belching up sour undigested food, I had pains in my back and sides, couldn't rest at night and when I got up of mornings I felt as tired as when I went to bed the night before."

"When I noticed in the papers about Tanlac I made up my mind right then to give it a trial. Well, Sir, I could tell from the first few doses that after all those years I had at last found a medicine I had been looking for. I kept on taking Tanlac until now all signs of indigestion and gas have completely disappeared and I am not troubled one bit with my heart. The pains in my back and sides have left me entirely and I am sleeping sound at night and when morning comes I feel rested and refreshed. I have recommended Tanlac to all my friends and as long as I live I will have a good word to say for it."

Tanlac is sold in Janesville by all leading druggists.—Advertisement.

## WILDE, DISPLEASED, MAY LEAVE THE U. S.; MAY MEET MASON

Milwaukee, Dec. 9.—Jimmy Wilde is disappointed. He is so disappointed that he may pack up his duds and go back to merry England. First of all he has decided that he will never again match up with any one who cannot make his weight or whom he cannot fight at his best poundage. Furthermore, he wants to meet Sharkey again under more favorable conditions.

The fact that he was required to fight at 167 pounds, which is several pounds overweight for him, Jimmy said is the cause for his not being able to show his real fighting ability. In his ten round bout with Jack Sharkey of New York bantam, Saturday night, The Mighty Atom says that Sharkey was at his best while he, handicapped by surplus weight, was unable to fight him according to the style which has brought him so much fame.

Talk now is going the rounds that Wilde may meet Frankie Mason of Port Wayne, Ind. Mason appears to be the only boxer in the United States at the present time of any class who can stand the Briton's weight. Like Wilde, he has been fighting in the bantam field because he has been unable to get a man to train down to his weight.

## MIXING BOXING WITH BASKETBALL

By BUD WILLIAMS  
Mixing dances and parties with basketball games have been common at some of the eastern colleges, but schools of the middle west have started something new by mixing boxing with the rest of the attractions.

Case School of Applied Science in Cleveland started it with an announcement of boxing bouts between halves of the basketball games to be staged there this winter.

The school's boxers will meet boxers from other colleges between halves of the basketball games, and promptly to comply with the requirements of the fuel administration that amusement places can be open only between the hours of 7 and 11 p. m.

Rockford has started off its season in fine form, beating the Yates five of Beloit by decisive scores last week. So far they have not lost a game. They have made two wins over Elgin, two in Chicago; everything in Rockford and Freeport.

Dalton will be back at his old position in the Lakota lineup Saturday night.

Manitowoc.—The local branch of the Travelers' Protective association petitioned the Soo line to change the train schedule. The travelers desire better connections with trains going north and northwest through Neenah so they may cover more miles when leaving here on their weekly trips.

Beaver Dam.—The fish and game commission at Madison has stopped fishermen from setting under the log in Beaver Dam lake. No arrests were made as fishermen were just commencing to operate.

after the game will be staged a dance.

In this fashion, the fans will have a complete and full evening. Women naturally will be interested in the basketball game and the dancing, and will likely become boxing fans after the first couple of bouts.

Women are boxing fans in other countries, but in America, they haven't had the opportunity. It is possible that this new stunt of Case will popularize boxing among the gentler sex.

The more conservative eastern colleges will watch the innovation with considerable interest.

# Tire After Tire, Millers Outrun All Standard Mileage Guarantees

ALL Millers are long distance runners. A Under like conditions all wear the same. Not a few give unusual mileage. But every one outruns all standard mileage guarantees.

Every Miller Tire, regardless of the mileage run, is guaranteed against defects in workmanship and materials.

## The Severest Tests Prove This

Many of the nation's largest concerns have carefully tested every leading make of tires. These tests have been made over many years, and hundreds of thousands of miles.

Almost without exception these concerns have today equipped their cars with Millers all round. For Millers proved themselves champions. They outran all other makes.

## Now YOU Be the Judge

Put Millers to the test on your car. Learn for yourself just how these famous Geared-to-the-Road tires excel.

Put a Miller opposite your favorite tire. Record the mileage each gives. Then you will be convinced. And will never again trust to luck in tire buying.

Drive up or call up NOW for your pair of Millers.

## GEARED-TO-THE-ROAD

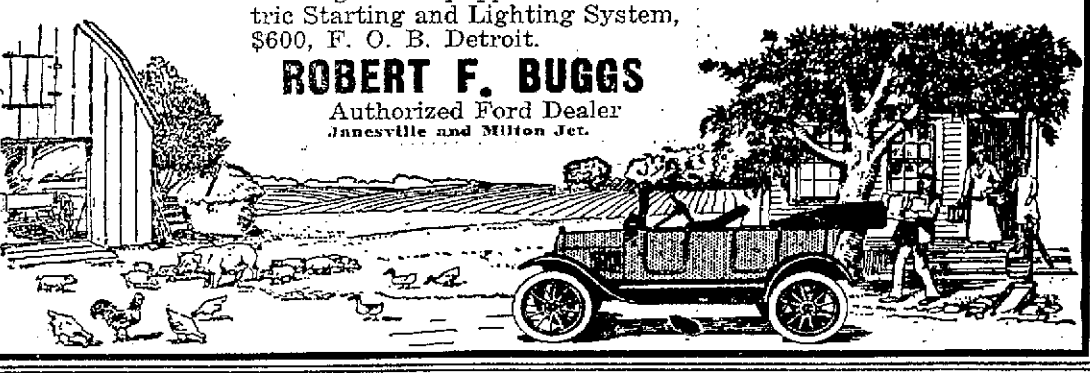

**THE UNIVERSAL CAR**

Out of the more than 3,000,000 Ford cars now in use, about sixty per cent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living, and by the same token the Ford Touring Car has brought just as much pleasure to the residents of the towns and cities, because it is an every day in the year utility, answering the demand of quick transportation at low expense. A family car without an equal in low cost of operation and maintenance. We solicit your order for one. We have the full line of Ford cars. We carry the genuine Ford Parts, and assure you the best in mechanical service and the most reasonable prices.

Touring Car Equipped With Electric Starting and Lighting System, \$600. F. O. B. Detroit.

## D. A. R.'S IN UNIQUE H. C. L. PROGRAM

The high cost of living was given a unique interpretation yesterday afternoon at the monthly meeting of the D. A. R. held at the home of Mrs. J. G. Rexford. Six women attended in appropriate costumes gave a brief resume of facts incident to that subject pertaining to the period of revolutionary times, that of the Civil war, and of the present day. Miss Charlotte Prichard and Miss Louise McNaught represented the revolutionary period, the former giving a description of the war work of the dames of those times, "Yankee Doodle" as one of the earliest American songs was sung by Miss McNaught.

Mrs. A. E. Lovejoy and Mrs. Stewart Richards appeared to urge the claims of the Civil war period for consideration. Mrs. Lovejoy, atired in a Paris gown of Civil war days, read a letter written by her mother, Mrs. Stowe, which described the opening days of the war, and the many shifts which housewives had to resort to in those days. She also read a letter from her father, Mr. Stowe, which described the conditions prevailing at St. Louis after the war. Mrs. Richards dressed as a Southern belle sang "Carry Me Back to Old Virginia," and "Maryland, My Maryland."

Mrs. A. C. Routh in the familiar uniform of the Red Cross nurse, gave a resume of the fundamental causes underlying the high prices of food stuffs of the present day. Miss Edna McCulloch sang "The Long Trail," Miss Matella Calkins and Mrs. Horace Blackman were in charge of the program.

During the business meeting preceding the program, three names were added to the membership. They were Mrs. Ada Pember, Mrs. Constance Nugum, and Mrs. Baker Woodruff.

Mrs. C. S. Atwood reported on the work of the committee on landmarks in which she spoke of a trip made to the burial plot of the St. John family south of town, and of plans proposed by the committee to mark the place in a fitting manner.

It was decided to leave the matter in abeyance until spring. Plans for a marker showing the first spot where the log cabin was erected by Henry P. Jones, on the present site of the city were also discussed. Miss Kate Fifield was added to the committee which now consists of Mrs. Francis Grant, Mrs. Atwood, and Miss Fifield.

Mrs. T. S. Nolan reported on the committee of Americanization. Resolutions of condolence on the death of Jessie Leiden were reported by Mrs. A. Magee, and Mrs. W. T. Sherer. Mrs. Sherer was the pianist for the afternoon, and Mrs. Edwards was assistant hostess. Light refreshments were served at the close of the afternoon.

**MEN'S OPEN FORUM TO  
HEAR DEAN SELLERY**

Prof. George C. Sellery, dean of the liberal arts course of the University of Wisconsin, will be the principal speaker at the meeting of the Men's Open Forum, of the city, which will be held in the church Friday evening. His subject will be "Educational Reconstruction." Frank J. Lenth, principal of the Rock County Training school, will also speak, emphasizing the work in the graded and high schools.

The program will follow a supper to be served at 6:30 p. m.

A few copies of the New World Atlas can be obtained at the Gazette office at 25 cents per copy.

## M. E. CHURCH GIVES WELCOME TO MEMBERS

The "glad hand of friendship" was given in an informal way by the membership of the Cargill Methodist church last evening to the new members recently. It also included in its welcome the new district superintendent, Rev. F. J. Turner, recently located in this city, the resident Methodist ministers, and the pastor, the Rev. P. P. Lewis, recently returned by the conference to this charge.

Rev. Perry Miller voiced the welcome, gave a word of appreciation for the service of the women, and noted that the men were coming forward and doing their share of the church work.

Dr. T. W. Snodgrass sang several negro melodies; Miss Elva Moore read a chapter from the doings of Topsy in Uncle Tom's Cabin; Mrs. F. H. Edwards sang a group of songs; Mrs. Ada Pember gave a poetical version of "The Rose of the Hurons," with piano accompaniment by Mrs. W. T. Sherer; Dr. and Mrs. Stewart Richards sang a duet.
